837th U.S. Army Transportation Battalion (Terminal)

1st Qtr, FY 2006

Commander's Corner

LTC Richard J. Kramer

Battalion Commander

It's hard to believe 18 months have passed so quickly, but it is true. What a great quarter! You have all done a tremendous job with executing your operational missions, and at the same time giving back to the unit and the community. I want to personally thank both the Christmas Party committee and the Orphanage Christmas Party committee. Both committees, (many of the same personnel) did an absolutely fantastic job for both events. I believe the XO was close to being cornered into singly "Livin Lavita Loca" but not quite enough money was raised or he didn't have enough to drink at the time. I truly appreciate your time, sacrifice and commitment to making these activities as successful as they both were. Job well done for all involved!

We had a very exciting November where the President was in Busan for the APEC Summit. I can not confirm or will deny that the XO and I were involved in any escort duties for the Bush Twins. The same week Gen Laporte was provided a bringing on the "non support plan" after Camp Hialeah Closure. Sergeant Major of the Army Preston also made a trip all the way to Camp Hialeah to eat with the soldier and NCOs here. Yes, two of our NCOs got coins and one of the coins went to SFC Sprague. I heard some of the other NCOs say it was for eating the most turkey, but I suspect they were just jealous

that they didn't get a coin. Additionally, we were able to host COL(P) Hodge for his first visit to Korea in early Dec where he joined us for a traditional Korean sit on the floor dinner as well as attending the Orphanage Christmas Party with us. For the record, I personally did not see Santa drinking anything out of a brown

MAJ Terry Draper
Battalion Executive Officer

2005...Another Outstanding Year!

Greetings Kargo Kings! This was the quarter of holidays, eating, at least thinking about exercising and more eating. We were finally able to slow down a bit with port operations metering off this quarter which gave us the much-needed time to relax, get caught up on the paperwork and details and prepare for the holidays.

We supported another successful NEO exercise with SSG Lewis and Lara Spomer representing the battalion ensuring our personnel and records were squared away and ready to move at a moments notice. NEO is sometimes overlooked, but is an integral part of ensuring our family members are prepared to move off peninsula in times of contingencies. Many thanks goes out to their efforts in this area.

We held our battalion organizational day where Mr. John Scott (CDS) showed his prowess on the barbeque grill by cooking up some tasty ribs with his secret sauce. Everyone pitched in to prepare food and make it an enjoyable event. Its nice to break away from the office and share the time with the many valuable members of the KARGO KING team!

November and December provided time for everyone to take time off and burn up some of that excess compensatory time and leave. It was our pleasure to host COL(P) Hodge (DCG, SDDC) to Korea and Pier 8 and we provided him some insight to what makes the 837th Transportation Battalion the hardest working SDDC battalion in the

MAJ Draper makes opening remarks at the unit Christmas gala.

U.S. Army. We were also able to make a difference in some children's lives once again this year as we hosted the KARGO KING Annual Orphanage Christmas Party. A lot of hard work and effort went into this year's event with the presents, food and coordination. We always appreciate our pastoral link, Reverend Tony Jones who donates money to assist us in buying presents for the children. Santa Claus showed up and handed out presents and at least for one day, the kids were able to enjoy themselves without a worry in the world. Job well done everyone!

We closed out 2005 with a great Christmas party at the Paradise Hotel and I appreciate the planning and hard work the committee put forth to make this the "must attend" event each and every year. Mr. Pak (IMO) and his wife stole the show on the dance floor and also walked away with the grand prize raffle of the night. They looked good and won the prize all in one night!!!

2005 once again showed what amazing things the professionals of this organization can accomplish. The leadership, intelligence, initiative and hard work of each and

every individual in this organization, when combined as a team, prove to be a winning combination each and every time. While I don't know what 2006 has in store for us, I know one thing for sure: the KARGO KINGS will be standing tall ready to take on any challenge put in front of us and will each and every time produce only outstanding results!

HAPPY NEW YEAR!

KARGO KING XO

SGM's Corner

SGM Willie L. Jacobs
Sergeant Major

Greetings Kargo Kings, another busy quarter has come and gone and I want to personally thank you for your hard work and for going the extra mile to ensure there were no mission failures.

As you know the 837th is always busy but we always find time to participate in other events that support the community. During this Quarter, 18 members of the 837th volunteered to cleanup and beautify the United Nations Cemetery prior to the APEC meeting held here in Busan. The worked included cutting grass and removing trash from the area.

We also sponsored a local Orphanage which has 123 children assigned. We held a party for them on Camp Hialeah which 72 children from the Orphanage attended along with 4 of their staff members. We provided both Korean and American food which children enjoyed very much. They were entertained with music, train ride around the installation and with play ground fun and soccer. The

big event was a visit from Santa who showered them with gifts and candy. Through donations within the 837th and a long time supporter of this event Mr. Jones, we were able to purchase gifts for all 123 children which include 15 infants. The gifts consist of coats, belts, sleepers, sweaters and over 500 diapers. I want to say thanks again to everyone from the 837th Trans Battalion because without your donations and your willingness to sacrifice your time this could not have been possible. I want to especially thank the various teams that did the shopping, gift wrapping, the drivers, the ones who prepared, cooked and served the food, and the ones who attended the party and assisted with keeping watch on the children as they played and rode the train, thanks again for your extra effort and thanks again for making this a successful event. I also want to thank SFC Sprague for playing Santa for the Kids; they really enjoyed the photo and candy they received from him. I also appreciate all of you that supported this event by bringing your families to the party and making it a family affair for the other children. This made total number of people who attended party exceed 120, what a great event!

Our Battalion Christmas party was equally successful and I want to thank Mr. McClendon for taking the lead on this and to SSG Colbert for sharing his talents and his equipment while providing the music. I also attended Camp Hialeah Christmas Party which included the entire Hialeah community workforce. This was a great event but it also represented the last big event of the community

as we make preparations to close the installation.

Once again we had another productive quarter for promotions and awards. My congratulation goes out again to SFC Sprague and his family for being selected as Camp Hialeah's Outstanding Family of the Year. I would like to extend my congratulations again to all to the KATUSA's who were promoted during this time frame.

While our mission slowed down, we were able to focus the additional time on training. We conducted a successful M16A2 and M9 range with 100 percent end of day qualification for everyone who attended. Our APFT was equally successful; with a Battalion average already above 265 point we were able to increase that to 273 points, thanks to several Soldiers and KATUSAs scoring well above 270 points.

2005 was a very busy year and 2006 will be even more challenging as we prepare to relocate and continue to conduct normal business. I hope that everyone will take time out for themselves and their families and enjoy the holiday seasons. As we enter into 2006 I look forward to your continued support and hope that you have a very prosperous New Year!

*SGM Jacobs making opening remarks
at the orphanage Christmas party.*

Terminal Operations Section

Mr. Gonzo Rivera

Chief, Terminal Operations

The Kargo Kings Operations Section kicked-off Fiscal Year 2006, on the very first day of the new fiscal year, with the redeployment of the United States Marine Corps' III MEF who had just completed another successful Ulchi Focus Lens (UFL05) Field Training Exercise. Once again we used the Port of Mokpo to load the Marines' equipment on the M/V Green Point proving Mokpo's viability for port operations. A small, but very skilled 837th Transportation Battalion Deployment and Distribution Support Team (DDST), once again deployed to the Port of Mokpo in eastern Korea to load the M/V Green Point with USMC III MEF equipment destined to their home base in Okinawa, Japan.

The 837th Transportation Battalion coordinated call forward movement of unit equipment to the Port of Mokpo, conducted cargo reception and staging, and completed vessel loading consistent with the USMC's III MEF redeployment time-lines. We loaded the M/V Green Point on 1 October 2005 with 146

pieces of USMC unit equipment. Command and Control for this operation was maintained from a centrally located Deployable Port Operations Center (DPOC) at the port. Our DDST utilized the Worldwide Port System and Radio Frequency Identification equipment to provide In-transit visibility of all cargo.

Following redeployment of UFL05, the Kargo Kings Operations Section continued to work diligently on numerous liner service vessel operations. Although these liner service operations don't always provide us with an opportunity to conduct hands-on vessel loading, much of the cargo associated with these shipments arrived at pier 8 where we unloaded the cargo, inspected and receipted it, and later arranged for movement of the cargo to commercial piers. Shipments moving via liner service included the relocation of the 307th Signal Battalion to Fort Huachuca, AZ and relocation of the 4th Quartermaster to Alaska. We also used APL for movement of vehicles via liner service to Kuwait in support of Operation Iraqi Freedom and Sea land/Maersk to move equipment to Guam in support of Exercise

The Port of Mokpo; another great port capability the 837th has established.

Shadow.

During operational mission breaks the Kargo Kings Operations Section was engaged in numerous 837th Transportation Battalion initiatives. The Operations Section worked side-by-side with the Cargo Distribution Section and together hosted a very successful Customer Service Conference focused on proving USFK shippers with first hand information and training on cargo offering, booking, and shipping procedures for Defense Transportation System shipments.

The Operations Section took the lead on the review of our existing Stevedore and Related Terminal Services Contract scheduled for renegotiation and completely rewrote a new Performance Work Statement consistent with SDDC contracts worldwide and submitted it to the Contracting Command Korea (CCK). The new Performance Work Statement and Source Selection Plan will insure the awarded contract is a Performance Based, Best Value, Wartime Critical Contract. The Chief Operations attended an Advance Acquisition Planning seminar at the Contracting Command Korea Seoul main office and obtained necessary credentials to electronically submit our Contract Acquisition Plan through CCK's automated system.

During this quarter the Kargo Kings Operations Section hosted visitors from the Logistics Civil Augmentation Program (LOGCAP), the 19th Theater Support Command (TSC), and the 20th Area Support Group (ASG) to discuss the roles, functions and mission of the PSA when operating at strategic ports in conjunction with the 837th Trans Bn. The primary focus of our visitors was to gather information that would assist them in writing Mission Support Descriptions (MSD) for the 19th TSC that could later be modified into LOGCAP Statements of Work (SOW) required to provide necessary support to the Port Support Activity (PSA), Personnel Holding Activity (PHA), Marshalling and Staging Area Support and ADACG operations. The 837th Transportation Battalion provided our visitors with information on our organization's missions and functions so that they could correctly delineate tasks, if and when Logistical Civil Augmentation (LOGCAP) becomes necessary at any given port.

On 2 November 2005, the Kargo Kings Operations Section also hosted a team from LMI, tasked by the Joint Staff and OSD to conduct an assessment of the policies, procedures and capabilities for distributing and tracking military arms, ammunition and explosives (AA&E) within each COCOM. Their primary focus was on the safe and secure distribution of AA&E, emergency response capabilities in the event of an incident and existing satellite tracking capabilities within the Korean Theater of Operation (KTO). Their visit with the 837th Trans Bn focused on interviewing Subject Matter Experts (SMEs) within the Operations, Cargo Distribution and the Information Management Section in the areas mentioned. While visiting us here at Pier 8, the LMI team also interviewed operational, transportation, munitions, force protection, and intelligence SMEs from the 19th TSC and the 6th Ordnance Battalion.

The Operations Section led a full day of discussions concerning the policies, procedures and capabilities for distributing and tracking military arms, ammunition and explosives and on the safe and secure distribution of AA&E. The 19th TSC and 6th Ordnance Bat-

talion provided the team with the information they needed on emergency response capabilities and existing satellite tracking capabilities within the Korean Theater of Operation (KTO).

At the conclusion of their visit, the LMI team departed pier 8 with a much better understanding of the Korean Theater's munitions distribution policies, processes, tracking capabilities, and emergency response procedures and gained a much better understanding of what the 837th Trans Bn's primary role is in coordinating vessel bookings, preparation of stow plans, manifesting cargo associated with vessel loading, and coordinating port operations and the use of the Port of Chinhae with the Republic of Korea Port Operations Group (ROKPOG).

The Kargo Kings Operations Section also participated and took an active role in the first ever 599th Transportation Group Planning Conference. Attendees included planners from HQ SDDC, USPACOM, USARPAC as well as 599th Trans Gp and Battalion planners. The planning conference provided group-wide planners and operational staff personnel with the opportunity to review contingency OPLANS and define our roles and responsibilities in support of these plans. During the conference requirements to update contingency plans were also identified and will become matters of discussion at the senior leader level.

The 1st quarter of FY06 ended just like it started. On 31 December 2005, the very last day of the quarter, the USNS Bob Hope, a Large Medium Speed RO-RO (LMSR) vessel, on it's way back from Kuwait, berthed alongside pier 8 and we loaded 54 M1A1 Abrams Tanks and 36 additional pieces of retrograde cargo on the ship. The operation was completed in one day and the Kargo Kings closed out the 1st quarter of FY 06 with yet another very productive, efficient and successful mission.

M1A1 Abrams tanks lined-up for loading on the USNS Bob Hope at Pier 8.

Cargo Distribution Section

Mr. John L. Scott
Chief, Cargo Distribution

First Quarter History

CDS personnel welcomed fiscal year 2006 (which also signaled the end of calendar year 2005) with the same drive, determination and enthusiasm as it has in years past. Though there were only six outbound cargo shipments, of note during this first quarter, we continue to learn, train, plan, prepare and fine-tune our day-to-day operational procedures to serve our customers better.

In an effort to maintain the high level of professional service, Team CDS has instituted a cross-training program that will allow all CDS personnel to become familiar and obtain basic knowledge in all six areas (Import, Export, Cargo Billing, Cargo Clearance, Quality Assurance and Customs Coordination) of CDS. We are also conducting systems training on BCS3, the Pipeline Asset Tool (PAT) and the WPS portable system.

In other training events, CDS personnel participated in fire prevention training and cold weather training. In addition, SSG Bruce traveled to Camp Casey to attend the two-week Armorer Course.

In keeping with the Kargo Kings policy of "Educating the Customer", CDS hosted a very successful Customer Service Meeting at Pier 8 on 8 Nov 05. There were 19 participants from various agencies/units in the KTO (AAFES, DECA, 25TH TRANS BN, USAF, 29TH ASG, DDDK, etc). Attendees were briefed on the booking process, call forward procedures and docu-

mentation requirements. All personnel now have a better understanding of the 837th Trans Bn mission as well as the requirements under the Universal Service Contract (USC).

The following are outbound missions, of note, during this first quarter:

III MEF: The MV Green Point departed from Mokpo, 1 Oct 05, with 148 pieces of cargo in support of the III MEF redeployment to Okinawa.

APL SINGAPORE: This vessel supported the following cargo movement:

4 th QM	35 pcs	Alaska
307 th Sig Bn	63 pcs	Ft Huachuca
DDDK	52 pcs	Goose Creek
MSCK	3 pcs	Ft Hood

Vessel APL Singapore departed from Shinsundae Pier on 8 Dec 05.

DDDK/MSCK SHIPMENT TO KUWAIT: APL Ningbo departed 26 Dec 05 from Shinsundae terminal with 18 pcs of cargo destined for Kuwait.

Team CDS reviewing shippers documentation and customer requirements before submitting to commercial carriers.

SHADOW EXERCISE CARGO TO GUAM: Maersk Comet departed 29 Dec 05 from Gamman terminal with 15 pcs of cargo destined for Guam to support Shadow Exercise.

DDDK RETROGRADE: The 54 M1A1 tanks were uploaded on USNS Bob Hope on 31 Dec 05 destined for Anniston, AL.

Reminder on New Civilian Leave Year

By Mr. Eddy D. McLendon
Admin Officer

Each new calendar year also signals the beginning of a new annual leave year for both Department of the Army (DAC) and Korean National (KN) civilian employees. Supervisors of DAC and KN employees should play an integral part in helping their employees manage annual leave time by requesting projected leave schedules for the new leave year. They must manage employee hours of work and leave prudently and equitably. Management can approve or disapprove leaves after considering mission requirements, status of employee's work assignments, and needs of other employees. However, employees have the right to take annual leave at some time during the leave year. Supervisors are reminded that they are responsible for:

- Administering the Fair Labor Standards Act and Title 5, USC for DACs and USFK Regulation 690-1 for KNs fairly, consistent with local labor agreements or command policies
- Establishing work schedules that balance mission requirements with people's needs or rights
- Reviewing, approving, or disapproving leave requests

- Ensuring subordinates maintain accountability of their leave
- Monitoring time and attendance
- Explaining local leave policies to new arrivals
- Signing time cards and leave slips

Mr. McLendon, Admin Officer, is being celebrated for his birthday by the command and support team.

Annual leave should be scheduled in advance. By planning leave breaks will help prevent employees from having to take "use or lose" leave at the very end of the calendar year. Employees are encouraged to plan their projected leave early with their supervisors and family members!

INFORMATION MANAGEMENT OFFICE

Mr. James Kim
Information Management Officer

In October 05, 36th Sig Bn, LCC, Sgt Smith visited for DMS workstation installation.

In October 05, HQ SDDC, Ms. Mariah Bersane, Mr. David Beaudet, and Mr. Nivesh Patnaik visited Pier 8 for the hardware software installation work on our two WPS servers.

In October 05, 837th Trans Bn Cdr completed Designated Approving Authority (DAA) training course via website and obtained its certificate and the record has been filed in official folder.

In November 05, Force Protection Alert Warning System (AWS) has been installed and activated by Northrop Grumman engineer, Mr. Pate Edwards on 15 Nov 05.

In November 05, completed re-key on KG-194 for both GCCS-J and GCCS-K.

In November 05, Inventory check of 18

Mr. Pak is checking the DMS workstation installation.

FORTEZZA cards performed by CP Hialeah COMSEC POC, SSG Clair and it has been re-keyed for STE/STU-III.

In December 05, a new Plans/S-2 office been setup next of CSCC room and the LAN established.

Good bye Unix Carryaway and Welcome WPS-W

Ms. Lara H. Spoerner
WPS Administrator

It's time to say good-bye to the UNIX Carryaway System. We are happy that we don't need to carry the big and heavy HP and Python any more. We've deployed with this equipment to many places for several years. We've replaced our UNIX Carryaway System with three new Panasonic CF-28 Windows 2000 Server Carryaway Systems.

The new system is called WPS-W. This system is designed to support the common users, Ocean Terminal management and cargo documentation mission. WPS-W is a small, portable WPS Carryaway System that runs on a laptop or notebook computer. It's designed to move to a remote location away from the main WPS server and communicate information back to that Terminal File Server. The user may find the new system awkward at first because of the brief delay in response time from the server. Aside from that, the user will smoothly transition to WPS-W because most of the screens are the same as the old UNIX system.

New WPS-W Carryaway System

The new system has one major improvement; the Query screen. Most WPS users struggled to learn the IQ function in the old UNIX System. With the new system, the user can have a Query result by just selecting and clicking items in a Windows dialog box. The portability and the streamlined Query function will make life a little easier for all WPS-W users. Let's welcome WPS-W and enjoy it!

KATUSA Perspective

By SGT Moon, Do-sik
Senior KATUSA

Orphanage Party

The Orphanage Christmas party was held on 3 Dec 2005 at the religious education center on Camp Hialeah. We welcomed approximately 70 orphans from 'Saedulwon' to the party. All the Soldiers and some of the civilian employees attended the party. We prepared foods like pizza, hot dogs and Gimbap which everyone enjoyed. We then took a small train loaded with the children and circled the perimeter of Camp Hialeah.

SGT Moon, Do-sik cooks hot dogs for the Children's lunch.

The children really enjoyed the ride and it made us feel good that we were making a special day for them to remember. Later in the day the children were visited by Santa Claus. He gave gifts and candy to all of the children. Santa was played by SFC Sprague; he looked and acted like a real Santa Claus.

Sending them back to their orphanage was difficult after everything was over. This was my second orphanage party at the 837th. I had a chance to see some of the children that were there last year and I was happy to see their growth just from a year ago. I

thought this was a very meaningful Christmas party for all of us and I hope that we will continue to do it in the future.

Christmas Party

16 Dec 05, All personnel of 837th transportation battalion had a Christmas party at the Paradise Hotel. The hall where we had the party was filled with everyone from the Battalion to include a few invited guests. There was so much food and beverages for us to enjoy that it made the night very pleasant. The KATUSAs brought blind-dates to the party so they would have beautiful girls to dance with. SSG Colbert (DJ Rockwell) played various kinds of music for us during the party. All of

KATUSA soldiers and their invited guests are enjoying cocktail hour at the Battalion Christmas gala.

the staff members in the hotel were so kind to us and delivered very good service. Although there were no fancy stages or shows, everyone at the party seemed to be satisfied. It was a very impressive night and I really enjoyed my last Christmas party as part of the 837th at Busan.

Commander's Corner (continued from page 1)

paper bag and I vigorously defend our Santa's behavior as being beyond reproach.

Looking at the calendar, the next 6 months will be very exciting. During the next quarter we'll be spread throughout the KTO working III MEF Freedom Banner at Mokpo and III MEF RSOI deployment at Pohang. We will work the planning of retrograde and unit moves for later in the year as well as hosting our joint/combined CHEMEX and executing seaport rehearsals to refine our CONOPS.

Lastly, we are working the details of our pending HQs move to Daegu for this summer as well as the transition of battalion leadership. To you, the Kargo Kings, whom I have the utmost faith in accomplishing the impossible, I say thank you and "bring it on!"
